Announcing TQL Freight Finder Version 2.0

TQL has listened to user suggestions and added some great new features to version 2.0 of TQL Freight Finder. This enhanced version is still FREE, and will replace the original on all download sites. TQL Freight Finder version 2.0 will still maintain the same original functionalities, but with the following new additions:

ADDITIONAL EQUIPMENT/ MULTIPLE EQUIPMENT SEARCHES

Vented vans and step decks have been added to the list of equipment that users can choose when selecting equipment types on the Load Search filter screen. Users also now have the ability to select more than one type of equipment in the same search.

EMAIL THE BROKER

Once a load has been found, the user can now click a button that will send an email to the broker who has posted that load.

STATE TO STATE SEARCHES/ ADJUSTABLE DESTINATION RADIUS

Users no longer need to specify a city when searching for a load. If cities are entered, a different radius can be picked for the pick-up and drop destinations.

Download TQL Freight Finder Version 2.0 for FREE from the Android Market or the Apple App Store.

Have comments or suggestions? Contact us at marketing@tql.com.

CANADIAN FREIGHT

Users can now enter Canadian Provinces into the pick-up or destination state on the Load Search filter screen to view all Canadian loads in our database.
