TESTIMONIALS

“I’ve been selling produce for 35 years and like to stay dedicated to one to two carriers I can depend on. TQL got 98% of my business and I am opening up my customer list to them to contact directly. I have not offered that to any broker. That speaks for my confidence in TQL.”

- Arizona Shipper

“TQL understands the multiple unique logistics requirements we present and has proven their abilities to respond. When service failures happen, TQL does not run and hide - they take ownership.”

- Texas Shipper
