WHO WE ARE

Total Quality Logistics is the second largest freight brokerage firm in the nation. TQL connects customers needing to move truckload freight shipments with carriers having capacity to move them. Headquartered in Cincinnati, Ohio, TQL has 58 offices in 25 states and employs more than 4,200 people. In 2016, the company moved more than 1.3 million loads of freight with sales topping \$2.3 billion.

WHAT WE DO

TQL arranges delivery and pick-up for business-to-business freight movement across North America. We serve the produce, food, manufacturing, retail, construction and energy industries among others, providing:

- ↘ Temperature-Controlled Shipments (Reefer)
- ↘ Vans and Flatbeds
- ↘ Less-than-truckload (LTL)
- ↘ Intermodal and Drayage
- ↘ High-Value Cargo
- ↘ Oversized loads
- ↘ Custom Brokerage
- ↘ Supply Chain Consulting

OUR TECHNOLOGY

TQL's technology is developed in-house based on direct feedback from customers and carriers. This allows us to provide transparency, efficiency, and customization depending on the customer's unique requirements. TQL was the first freight brokerage firm to introduce mobile freight finding applications to the trucking industry. Some of our proprietary applications include:

- **TQL TRAX** Our customer portal and mobile application includes load tracking and status updates, load tendering, documentation management and invoice payment and management.
- **CARRIER DASHBOARD** This technology gives carriers the ability to search available loads, automate check calls, capture and send documents and find backhauls.
- **TQL ON-THE-GO** This custom mobile app gives our team 24-hour access to the information we need to manage our customers' freight 24/7/365.
